OBJECTIVE

Blockchain & MERN Stack Developer Trainee at Adam Finastra Pvt. Ltd., holding a B.Sc. in Cyber Forensics and a PG Diploma in Blockchain. Passionate about building secure, scalable web applications and advancing expertise in blockchain integration.

SKILLS

Technical Skills :Blockchain, MERN Stack, Next.js, Nest.js, GO , JavaScript, TypeScript, C++, HTML, Tailwind CSS, RESTful API, Ethereum, Solidity, Smart Contract, HardHat, Cursor ai, Chatgpt

EDUCATION

PG Diploma in Blockchain 2024 - present
Digital University Kerala, Thiruvananthapuram

Bachelor of Science in Cyber Forensics 2020 - 2023
School of Technology and Applied Sciences, Edappally, Ernakulam

COURSES

Software Developer Sept 2023 – Mar 2024
KKM Soft Pvt. Ltd, Under Deen Dayal Upadhyaya Grameen Kaushalya Yojana(DDU GKY)

Cyber Security Analyst Jul 2023 – jan 2024
ICT Academy of Kerala, Training centre in Thiruvananthapuram, Kerala

EXPERIENCE

Blockchain - MERN Stack Developer Trainee April 2025 – Present

- Adam Finastra Pvt. Ltd.
- Designed and developed blockchain-integrated web applications using the MERN stack (MongoDB, Express, React, Node.js).
- Implemented smart contract and blockchain solutions to ensure secure, transparent, and tamper-proof data management.

PROJECTS

[Taskify - Task Management System](#)

A web-based task management platform with role-based access, enabling seamless project creation, team assignment, and real-time task tracking.

[Nexis \(Loyalty website\)](#)

Developed a full-stack Web3 loyalty platform using React, Node.js, Mongoddb, TypeScript and Solidity. Integrated NFT-based membership, wallet authentication, admin dashboard, and on-chain reward draws with a secure and scalable architecture.

[Decentralized Voting System](#)

A decentralized voting system built with React and blockchain ensures secure, transparent, and tamper-proof elections.Votes are stored immutably, preventing manipulation and ensuring public verifiability. Voters authenticate through decentralized identities, protecting against fraud and maintaining the integrity of the process.

PROFESSIONAL DEVELOPMENT

- Developer Essentials for Blockchain (Kerala Blockchain Academy)
- Blockchain Foundation Course (Kerala Blockchain Academy)
- Certified Blockchain Associate (CBA) (Kerala Blockchain Academy)
